## XI. *The Appearance of a fiery* Meteor, *as ſeen by Mr.* Cradock, *communicated to the* Royal Society *by Mr.* Henry Baker, *F. R. S.*

*Read* June 7. 1744. THE Head and Body emitted an extremely lucid and white Flame. The Tail appeared of a tranſparent Blue, like the Flame of Sulphur.

This *Phænomenon* was ſeen on *Sunday*, *May* 27. 1744. at 11 Minutes after 11 o' Clock at Night: Its Direction from *S. E.* to *N. W.* or thereabouts; its Height ſeemingly not half a Mile.

It was ſeen, as here deſcribed, from the Terrace in *Somerſet-Gardens*, by me,

Zach. Cradock,
Of *Somerſet-Houſe.*
